Payouts API Overview

Use the Payouts API to automate money transfers to any bank a/c, UPI ID, card, or other modes. Generate the keys in test or production modes. You can check the parameters required, success, & error responses.

You can perform the following tasks using the Payouts API:

- Add and manage your beneficiaries efficiently.
- Transfer money to your beneficiaries' accounts using different transfer methods.
- Track the transfer status.
- Check the ledger and available balance instantly.

Authorize

Use this API to authenticate with the system and obtain the authorization bearer token. All other API calls must have this token as Authorization header in the format 'Bearer ' (without quotes) for them to get processed. The generated token is valid for 600 seconds.

Generate Token:

Url: http://preprod.waayupay.com/api/login

Request Parameters:

```
curl --location 'https://preprod.waayupay.com/api/login' \
--header 'Content-Type: application/x-www-form-urlencoded' \
--data-urlencode 'email=raghav@ablyworks.com' \
--data-urlencode 'password=12345678'
```

Response Parameters:

Transfers

Transfer funds to your beneficiaries through bank transfers, IMPS, and NEFT.
You can perform the following tasks using the transfers API:

- Transfer money to your beneficiary's accounts through Sync, Async, Direct, and Batch APIs.
- Check the status of each transfer using the orderid or txnid.

The Waayupay API Gateway URL is https://payout.waayupay.com/api/. You need to include this before each API endpoint to make API calls.

About Webhooks

Use webhooks to get notified about events related to the Waayupay payment flow such as orders, payments, settlements, disputes and workflow steps related to other Waayupay Products.

Webhooks (Web Callback, HTTP Push API or Reverse API) are one way that a web application can send information to another application in real-time when a specific event happens.

Example
Suppose you have subscribed to the order.paid webhook event, you will receive a notification every time a user pays you for an order.
